

Uber Jokes Laugh lounge comedy skit.

Hello Ladies and Gentlemen,

I'm about to embark on a comedy show. Wish me luck. We need laughter in our lives. So, I decided to get the wheel spinning. These are some observations. Your experience may be different. Let's all have a laugh and enjoy the holiday.

It feels like everyone has a uber or lyft license. What's going on here. Its sounds like a new cliché. They must be thinking. I'm driving so pay me.

It's a status symbol. I drive so fork over the credits.

Even your food comes from Uber. After they get done with your meal it will be a Guber. If you get what I am saying.

It's a good service. Let's talk about the prices. They just keep going up and up. It's Seth "Freakin" Rollins level expensive. The prices went super Saiyan on us.

Who can afford an uber nowadays? Well, I can't afford Uber no more. Gotta take the train. That's unreal. It's like life hanging in the balance. You can imagine what everyone is thinking. You giving Covid... No you gave me Covid. I don't have Covid. I just have the flu...

Next time I'm putting a downpayment on my Uber.

Goodnight folks.
