

2026 Election Night Results: An afterthought
by Mohammed Lodhi Hussain

X-TREME DEMOCRATS SEND BAD NEWS FOR NYC AND THE NATION WITH WINS

It seems like the extremists of the socialist, communist and anti-American wing have overtaken and trounced the establishment and centrist candidates in the 2026 campaign, if slightly.

However, a closer look will see that these X-Treme Democrats just were just given the seats because of low voter turnout. Discouraging voters with quality of life issues.

And remember a political concept of when is a win not a win. When it is a loss. A loss of character reasonableness and integrity.

Loss of morals and ethics and common decency. The inability of candidates to answer a basic questions brings to light the incompetence that we will be sending to Washington D.C. And do a disservice to our community.

The fact is Congress is a representative government. And although today is a win. In the larger picture. This is a disaster for the democrat party.

Weak candidates. Get weak results.

They will be incapable of governing and will be unprepared for the Parliamentary procedure and the functions of the levers of Representative Government.

This is a coup or power grab of the democratic party by the socialists, communists and overall insidious situations for the democrat party.

This is not the party I believed. It has severely lost it's way. It was the party of the People. Maybe we should start a Political party of Common sense in counter-counter common sense bread and butter discussion issues that impact our lives?

It's all about who has access to your coffers.

See for yourself. What did our social butterfly, the Mayor accomplish in the last year?

Our nonsensical NYC mayor has one cliché slogan that he repeats over and over again. In political bloat and verbiage. He is a cliché dispenser.

I think better candidates can govern better. When candidates only show during election time. I would think twice or thrice for supporting them. I feel we need to send the best and the brightest as a New York Congressional delegation. We failed at that, I presume.

This is a sad state of affairs for our City, State and Nation.

In wrapping this evening, I feel a restoration of goodwill and decorum will be needed to not allow the habitual “fighters” in the party derail our government.

I am optimistic by nature. And skeptical by experience.

I am ever hopeful that this nation founded on the principles of a rule of law negotiated under the hand of Providence, will bring a dynamic nation of truth-seekers and values leaders.

Sincerely,
