New York is transitioning from summer to fall soon. And it is a festive time of year in the city. I look forward to the change in the foliage across the state. If you are ever in New York City you must check out Brooklyn or apple picking upstate. From the Christmas Spectacular at the Radio City Music Hall or Times Square New Years Eve. New York has something for everyone.

I wanted to put things in perspective. In 1981, I was born and, on that day, too miraculous things happened my birth and the DJIA or the Dow Jones Industrial Average closed at 885.94. I find myself coming back to it when I lose my way. It is not about programming as example driven but as concept or thinking what is a programming really doing. It has elevated my programming game.

It is worth a look over.
