

Preamble

The Case for a Universal Tax Breaks for the America Citizen(s) and all entities and bodies 2026

We need Universal tax breaks for all citizens and tax fliers from individuals to small, middle and large Corporate and entities. This Universal Tax break can lead to spurring growth and reduce the need for pork spending in budget by legislators.

It also so simple and practical that regions and townships and cities may want to consider starting there.

A Universal Tax Break for all will keep more money in American's pockets, pocketbooks and purses. The current system favors, in the short term, tax fliers and high earners.

As interest rates steadily rise and the dollar cost of purchasing opportunity will continue to erode our US Dollar currency. This will allow recouping lots profits.

This will have a chilling effect on overspending and cutting waste, fraud and abuse.

The equation is simple: Take tax coffers out of the elected who care about their agendas and place the money back to the people.

A populus democratic/conservative reform to the tax current system.

I got the idea by listening to this weeks PBS Newshour's Politic Monday where Ms. Amy Walter discussed tax breaks for corporations.

If corporations can have socialist reforms. It can be inferred that every man, woman, and child.

Plus, another self-identified citizens and their families will benefit, if proposed with goodwill, to the American Public, they may find this more palatable to their political taste buds.

I have written a simple resolution to get the ball rolling below.

Universal Tax Breaks for All Resolution of 2026

written by Mohammed Lodhi Hussain

§1. Whereas, the tax system is staggered to have entities that have the most and the least and everyone in between be penalized for a cruel and unusual tax burden at the expense of the people of the United States of America;

§2. Whereas, the federal tax system favors no one or corporation but plays the politics of the moment a recording system may be implemented to limit or delete taxes after a certain time as delineated by individual duly-elected representatives in the federal, state and local municipalities Governing bodies;

§3. Whereas, A uniform Universal Tax Breaks will help all spur individuals, groups and entities to form and or develop new initiatives and will be incentive by their own money to build out the innovations of the 21st century.

§4. Whereas, the current system promotes within and withholds from without justification. The Universal Tax Breaks for all will return Capital to the Citizens and income earners. Decoupling it from the Swamps tendency to spend from the People's ATM (automatic Teller Machine) for personal profit, gain, power and influence;
